The London Eye Mystery by Siobhan Dowd

The London Eye Mystery is a children's mystery story. It is the story of how Ted, a boy with Aspergers and his sister Kat, solve the mystery of how their cousin, Salim, vanishes from inside a sealed capsule on the London Eye.

The main characters of The London Eye Mystery are Ted and Kat Sparks, and their cousin Salim.

I liked how it makes you think of what could have happened but what did happen was completely different from what you would have thought!

I recommend this book to 8-12 year olds.

Star rating 9/10.
