

Book Review

Name: Maximus

Form: N6

Author: Adam Blade

Title: Sea Quest

Genre: Fantasy, action and adventure book.

The book is about a 12 year old boy named Max who in the first series tries to rescue his dad as he is kidnapped by his brother the evil professor. Two series later he got his dad back. Series 4 he finds his long lost mother. Series five he has to battle another foe 'Red Eye' aka his cousin, Red Eye is a cyborg (half of his face is artificial) and was going to attack Max's home city, changes his mind but then went back to being evil.

The main characters are whoever the villain is in the series, Max, Lai (Max's Merry'n friend), Roger a pirate-ish person that Max and Lai met on the way to defeat the professor, and Grace, Roger's niece. My most favourite character is Roger because he is a badass robot, butt-kicking pirate.

I liked the adventure in the story that's what keeps me reading it. I didn't like some of the actions you would normally put into a movie.

I would recommend this to age 8-14.

I would rate this book 4 stars/5.
