

**Ethan**

**Year 9**

**Author: Tsugumi Ohba**

**Art Writer: Takeshi Obata**

**Genre: Manga Detective**

**Title: Death Note**

The Manga Death Note series is about a clever student called Light Yagami who one day gets bored until suddenly a notebook called the 'Death Note' drops from the sky. The humans whose name is written in this notebook will die. After seeing it work, Light uses the notebook to erase every single criminal in the world. Eventually the police start to notice and send in super-detective L to hunt down Light (up to this point known as Kira) so he can stop the killings and the dark change to the world.

My favourite character is L; he is a comedic detective sometimes and is always confident. He even gets close to finishing the case. Unlike Near (who appears in books 7 to 12) who is L's superior but he's a character who always leaps before thinking.

I like how much thought has gone into the art and the story. Sometimes there can be dark moments and I like that. I can go on for hours talking about how excellent it is!

I recommend this series to those who like dark stories, Manga and detective, in fact it is for everyone who wants a good story.

I give it 10 out of 10.
