Harry Potter And The Goblet Of Fire By J. K. Rowling

Genre: Fantasy

This is the fourth fantasy fiction book out of a collection of seven. Harry Potter returns to Hogwarts for his fourth year to be unwillingly selected to compete in the Tri-wizard Tournament. While Harry is doing dangerous tasks and trying to stay alive, the wizarding world is unaware of the rise of the Dark Lord .

There are a few main characters; the main four are Viktor Krum, Fleur Delacour, Cedric Diggory and Harry Potter. Ron and Hermione are also in most of the story trying to help Harry. Mad Eye Moody is also the main teacher but it's a disguise of a bad wizard.

I like this book as it throws in random, brilliant scenes which make the story amazingly addictive to read. I love it because when you finish a chapter, you just want to carry on as the cliff-hangers pull you in. The games are very well described and are unique so it's very intriguing.

For this book, all genders can read it. I think 10 year olds and over should read it as it can get a little scary and some of the vocabulary can be hard to understand.

I give this book 10 out of 10!
