Author- Karen M. McManus

Title- One of us is lying

Genre- Crime

This book is about the four suspects (Bronwyn, Cooper, Nate and Addy) in the murder of Simon Kelleher, creator of the notorious gossip app 'About That' at Bayview High. Simon was murdered 24 hours before he could post any of their secrets. The police suspect this is no accident and all of them are suspects.

The main characters include Bronwyn, Cooper, Nate and Addy. These characters all have secrets but one of them was willing to go to extreme lengths to protect theirs.

I really like the mystery in this book because at one point you may think it is one character but then you may notice one small detail which could make you rethink EVERYTHING. One thing I wasn't so excited about was the switching of point of views. If you aren't paying enough attention then you may become confused when the book focuses on a different character.

I would recommend this book to anyone who likes crime and mystery books and enjoys the suspense that is built up.

Overall I would give this book 8/10.
