

## Recommend A Great Book

Robert L1

Author: Tom Clancy

Title: Rainbow Six

Genre: Action

This book is about a terrorist organisation that plans to rid the world of people who don't believe in climate change and the fact they are poisoning the world to do this. They command an ex Russian spy to set multiple terrorists tasks to hit different areas but each time, these attacks are foiled by a group of highly trained soldiers led by John Clark. When their original plan fails, they try to poison the Sydney Olympics by creating a Shiva virus that was unsuccessful.

I highly recommend this book to anyone who likes guns and lots of violence and action as well as the odd swear word. It is an adult book so Year 9 and over only.
