The Secret Horses Of Briar Hill by Megan Shepherd

Genre: Fantasy

During the terror of World War II, Emmaline is taken to a hospital away from all the fighting. Emmaline keeps seeing mysterious winged horses through mirrors and she is transported to a magical land of the winged horses of Briar Hill.

The main characters are: Emmaline, Anna, Sister Constance, Benny and Thomas. My favourite characters are Emmaline and Anna.

I like how this book represented the hell that was WWII, and used short, snappy chapters that kept me invested. I didn't like how the winged horses weren't given much development or backstory.

I would recommend this book for anyone above the age of 5.

I give it 7 out of 10.
