### Fortnite Chapter 2: Season 2, Battle Pass

The creators of this game are Epic Games. Fortnite Chapter 2: Season 2 is the twelfth season of Fortnite. There were ten seasons in Chapter 1 and two seasons in Chapter 2.

The genre of this video game is fantasy, action and violence. Fortnite Chapter 2: Season 2 is a battle between Ghost Agents and Shadow Agents. Play solo or with your friends to gain wins to help your faction in battle. Fortnite has many different game modes; these include Creative, Team Rumble and the newly added Party Royale. Fortnite allows players to play cross-platform. Cross-platform means that Xbox players can play with PlayStation players.

The main characters in this game are Deadpool, Midas, Meowscles, Skye, TNTina and Brutus. All of these characters have a weapon with a rarity of 'mythic'; Deadpool has hand cannons, Midas has a drum gun, Meowscles has an assault rifle, Skye has an assault rifle and a grappler, TNTina has a boom bow and Brutus has a minigun. Mythic is the highest rarity in the game. There are six rarities in the game; Mythic is the best, followed by Legendary, followed by Epic, followed by Rare, followed by Uncommon and the lowest rarity is Common.

What I liked about the game was that there are different game modes, that you can play cross-platform and that you can change the settings of the party that you are in. A party is the group of people you are playing with in Fortnite. An example of the settings that you can change about your party is you can change the privacy of the party from public to friends only or private. Friends are people you follow on Fortnite or on your games console.

I would recommend this game to boys and girls over the age of 10. The reason for this is that there are guns and violence used in the game, which means that children below the age of 10 may be uncomfortable playing the game.

I would give this game 9 out of 10 because it is a great game. Although, you have to pay real money for Fortnite money (V Bucks). This is why the game is one star away from ten stars.
