Vicky Angel by Jacqueline Wilson

Genre: Fantasy/Real Life

There are two best friends, Vicky and Jade; Vicky is a flamboyant and outgoing girl while Jade is timid and usually follows Vicky's lead. They start an argument about extracurricular activities which results in Vicky getting run over by a car and dying in hospital. An hour after her death, she then, in Jade's eyes, returns as a ghost although Jade is the only one who can see or hear her. Jade attends her best friend's funeral, and then is again revisited by Vicky's ghost. When Jade returns to school, she is encouraged to attend a fun run activity that Vicky had signed them up for. She makes friends with the school's fat-boy Sam who Vicky didn't like and forced Jade to say horrible things to; he then forgives her.

As Jade tries to move on, Vicky starts to get more controlling which results in Jade not being able to get on with her own life and make new friends.

If you want to know how this ends, then you need to read the book!

The main characters are Vicky Waters, Jade Marshall, Sam (Fat boy Sam), Madeleine, Jenny, Vicky Two, Anne Cambridge, Steve Wainwright. Vicky is my favourite character.

Parts that I like and dislike are when Vicky gets her wings and when she dies.

I would recommend this book to strong-minded people aged 11 to 14 and give it 8.4/10 stars.
