Top Gun Movie Review

Genre: Action

This film is all about a man who is a naval aviator who attends a school for the top 1% of fighter pilots in the United States of America. His best friend was killed in a plane accident and he put himself down and blamed himself for the death of his friend.

The main characters are Maverick (Pete Mitchell); Goose, Charlie Blackwood and Iceman. The actors of these characters are Tom Cruise, Anthony Edwards, Kelly McGillis and Val Kilmer.

I liked how the film was different to every other film because it shows a main character's death in the first film.

I would recommend it to people above the age of eleven except for a few inappropriate scenes which slip into the category of twelve and above.

I would give this film 10 out of 10 because it was everything you could want from a film. It is realistic and interesting and has an amazing back story. This is why it is one of my favourite films ever to be made and I cannot wait for the sequel to come out at the cinema and on DVD.

The music is incredible and fully recognisable. The music was written by Kenny Loggins, Cheap Trick, Teana Marie, Berlin, Miami Sound Machine etc. These songs reached high in the charts; third best was 'Heaven In Your Eyes' at number 12, second best was 'Danger Zone' at number 2 and the highest ranking was 'Take My Breath Away' which got to number 1.
